

Study Abroad at the University of College Cork, Ireland

Junior Year Academic Plan for Chemistry/Biochemistry Majors

As both a modern, technological society and a country steeped in history, Ireland, land of poets and writers, beckons with its lush green hills and friendly people. EAP offers intellectually stimulating and culturally rewarding academic programs in three distinct yet quintessentially Irish locations. Referred to by locals as the “real capital” of Ireland, Cork is an energetic city with vibrant music, arts, and sports scenes. However it also has laid-back Irish charm, including breathtaking scenery, lively pubs, bustling colorful streets, and friendly people.

Pre-approved courses*

UCSB Equivalent	Course	Language of Instruction	Semester Offered (subject to change each year, check university website)
Chem 112A OR Chem 113A + Chem113C Biophysical/Physical Chemistry	CM3017 Physical Chemistry Part 2	English	Semester 2
Chem 113B + Chem 116BL Physical Chemistry + Advanced Physical Chemistry Lab	CM3016 Physical Chemistry Part 1	English	Semester 1
Chem 123 Environmental Chemistry	CM3104 Environmental Chemistry and Analysis	English	Semester 2
Chem 142A-B Biochemistry	BC1443 Biochemistry	English	Semester 2
Chem 150 + Chem 116AL Analytical Chemistry + Analytical and Physical Methods Lab	CM3024 Analytical Chemistry	English	Semester 2
Chem 162A Drug Design	CM4109 Pharmaceutical Chemistry Drug Design and Development	English	Semester 2

*Does not guarantee future course offerings

Course Catalog

If you wish to take upper division Chemistry courses that are not listed above, please search the [Cork Course Catalog](#) for a list of courses. Once you have identified a course(s), please obtain a syllabus (textbook information, topics reviewed, lab schedule) and fill out the following google form: <https://goo.gl/forms/X8PKAWFtp7cCrTC22>.

For more information on the program, please visit:
