| **Requirements** | • 3.0 cumulative GPA at the time of application and maintained through departure  
• Junior, Senior (completed at least 2 years of undergrad)  
• Biology, Chemistry, History, or related majors or minors only |
| **When** | • Summer: Mid-June to late July (6 weeks) |
| **Coursework & Details** | 9 upper-division UC quarter units; research only.  
Conduct full-time research M-F 9am-5pm with a professor at the University of Glasgow with other UC, international, and local students. Each participant will work on an individual research sub-topic within a larger research community of undergrad, masters, and PhD students. Report your findings through a mock conference presentation and written report. Biology and Chemistry majors will conduct research in labs with weekly interdisciplinary research seminars. History majors will have access to the largest research library in Europe and free access to archives, museums, and galleries, and will be trained in handling resources. History majors will have weekly project meetings and interdisciplinary research seminars.  
Indicate your top 3 research topics in your statement of purpose. See research topics available by clicking on the program page link above in the title, then select Academics. In May, participants will receive required reading (minimal) to complete before the program.  
All students are greeted with an airport pickup, and will participate in a traditional Ceilidh celebration and two excursions to Scotland’s most loved destinations such as Edinburgh, the Highlands, or Loch Lomond. |
