STUDENT VOICES

"Study abroad while studying abroad was one of my biggest adventures during my time at UCSB. The experience was extremely rewarding. I got to take interesting classes, learn about

the local cultures and traditions, and meet amazing individuals who blessed me with much kindness and love. I found a community with the UCEAP students and the UWI Volleyball Club players. I consider them family. Studying abroad was a challenge, a challenge that pushed me beyond my comfort zone, a challenge that made me become more appreciative of life, and a challenge that helped me grow in mind and in heart."

Jessie O. (Malaysia), UCSB EAP Barbados

"Studying in London is definitely one of the greatest experiences I have had as a Gaucho. I am always willing to live in a different environment and meet new people. UCEAP provided me with an opportunity to study at a world-class institution and to live in a dynamic city. At the same time, I had the opportunity to travel around Europe, and had a great time exploring London with other UCEAP students. I learned how to adapt to a new environment. More importantly, I saw and discovered more of the world."
