

Interdisciplinary Themes Abroad

In addition to searching for major specific courses, you may be interested in pursuing an interdisciplinary subject while abroad. Most options below are immersion programs that offer a wide variety of subjects while others may pertain to a specific interdisciplinary theme.

While these are recommended programs, specific courses are NOT guaranteed to be offered each term. Additional program options are available for each theme. Helpful resources to check out include the [UCEAP website](#), host university course catalogs, and the [UCEAP Course Catalog](#).

Check the [UCEAP website](#) for the most up-to-date information.
